

**DESIGNER**  
COMPOSITE DOOR FACTORY

## | ABOUT THE DOOR

Manufactured from GRP (Glass Reinforced Plastic), our doors are compression moulded to give a high definition panel design with an authentic timber appearance which is unaffected by variations in temperature.

The stiles and rails are composed of a water-resistant polymer which are bonded to the skin and then filled with an insulating core of 100% CFC- free polyurethane.

The main benefits of the door are:

- > The door is 9 times more thermally efficient than a timber door
- > Through-colour GRP, UV stable skin, meaning no painting or maintenance needed
- > Manufactured from high impact-resistant materials to offer high levels of security
- > Hung into a fully reinforced 70mm profile outerframe
- > Standard glazing sizes and a range of stunning decorative glass available

### Appearance

Your door must look good and be aesthetically pleasing.

Think about:

- > Door Style
- > Door Colour
- > Choice of Decorative Glass

### Security

All important in protecting your home from unwanted visitors.

You need:

- > Impact resistant GRP with rigid polymer subframe
- > High-density polyurethane foam core
- > Proven to PAS24 Security standard, essential for achieving 'Secured by Design' endorsement\*

### Weatherproof

A must to keep the elements at bay! It must have:

- > A waterproof door leaf
- > A high performance, weather resistant, glazing system
- > Weather performance, proven to BS6375 - 1 Classification, for weather tightness, air, wind and water

### Heat Insulation

Keeping your home insulated and your bills down. You require:

- > A high performance insulating core
- > High performance insulated glass units
- > A door that exceeds Approved Document L of the Building Regulation requirements

### Sound Insulation

Protecting you from external noise. It must have:

- > Baffling against noise with a high-performance insulating core
- > At least Outdoor-Indoor Transmission Class (OITC): 26db
- > At least Sound Transmission Class (STC): 29db

### Durable

A door with pedigree - tried and tested for over 20 years. It needs:

- > Strength from its construction
- > High impact resistant door skins
- > Stability, whatever the weather conditions

KEYHOLE FRAME

FULL ARCH FRAME

44

## | FIRE DOORS

We are able to supply a limited range of FD30 compliant Door Sets from an approved manufacturer. Full technical data and test data is available on request. There are a number of designs and colours to choose from, with a small selection of glass styles available. For more information, please speak to a member of our Sales Team.

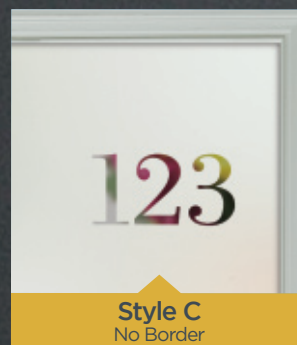

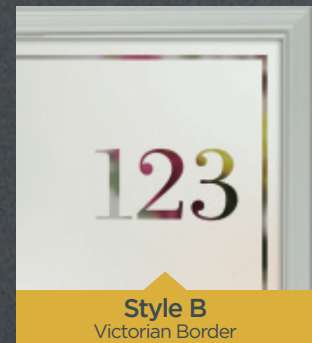

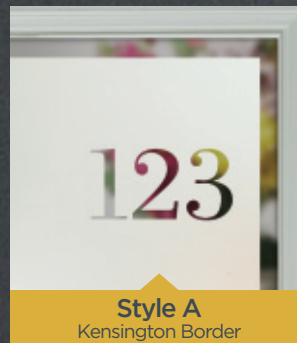

## | ETCHED SIDELIGHTS

Please ask a member of our team for order forms regarding Custom Etched Sidelights. There are a range of border styles and fonts available.

45

## | SMART HARDWARE

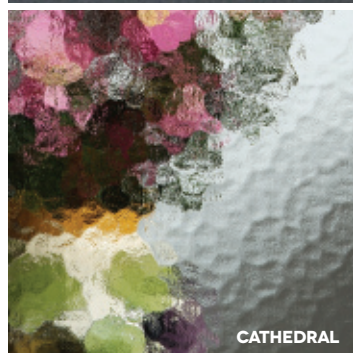

We have a range of state-of-the-art SMART hardware to give your doors a modern twist – allowing much more flexibility and connectivity including: remote locking & unlocking, status updates and app updates are all benefits of SMART hardware. Please speak to a member of our sales team regarding availability and functionality of our products.

## | PATTERNED GLASS OPTIONS

All our door styles are also available in a standard range of 4 carefully selected patterned glass options. Pilkington Textures are also available by special order.

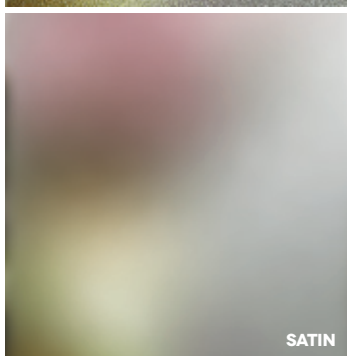

CATHEDRAL

PINPOINT

RAIN

SATIN

## | SATIN-BORDER GLASS OPTIONS

We also have two extremely popular satin-border glass designs, Kensington and Victorian, which make a fantastic addition to any door and is available in every door style.
